Mr. Hughes injuries consist of probable fracture of the skull over the right eye, possibly a fracture of the right leg and numerous bruises all over his body.

He is now in a critical condition at the home of his brother-in-law, 1600 East Fourth street. Dr. E. F. Staats is attending him.

Mr. Hughes and party had left Se dalia on their return trip to Hughesville. They were seated on a hay wagon, pulled by a team of mules When in the foregoing locality the anima's became frightened at the whistle of a passing train.

They made a dash forward and ran for a distance of five blocks, increas ing their speed each minute. The oc cupants were thrown from the wagon shortly after the team took fright, the wheels of the wagon passing over Charles Hughes' feet at the ankie, badly injuring them and possibly frac turing one foot.

Braden and the two Miller boys suffered painful bruises and lacerations all over their bodies, although their injuries were not so serious as to keep them from walking.

SPAIN HAS MORE TROUBLES.

Poor old decadent Spain has more trouble on her hands, which promises before she gets out of it to eclipse even the disastrous results of her collision with the United States eleven years ago. She is trying to prosecute an uphill war in Africa and concurrently has her hands full at home with the suppressing of domestic in surrection. It is really a very serious and Marvle, and Mr. and Mrs. J. E situation which the government now faces. The uprising in Morocco promises to be a trying affair. France had Sunday evening with Mr. and Mrs. her hands full for a year in the assertion of her suzerain power over Morocco. The subjugation of the rebellious little daughter, Aldieth, spent Suntribes taxed her mettle, notwithstanding the campaign were supported by the people and her resources were ample. Spain is badly equipped, in comparison with France, for a military enterprise of this kind. She has no surplus resources, her credit is weak, taxes are burdensome.

It is now evident that the Moroc can expedition will require anywhere from 25,000 to 50,000 men. The people of Spain, humiliated and unnerved by a century of ill luck in colonia? wars, have no longer any taste for their hardships.

In addition there is the extensive nalist element which is always ready to take up arms against the monarchy, but is bitterly opposed to doing its military service.

If it is true that the uprising op the Riff coast will necessitate a force of 40,000 soldiers, as is contended by the general in command, the Spanish government may find itself unable to meet the crisis that such a demand must inevitably precipitate at home The draft of troops for Morocco has stirred up insurrection at a number of points, while Barcelona, one of the hotbeds of European anarchy, was

and is in a state of dangerous turmoil. The memories of Cuba are still fresh in the mind of the Spaniard. For years he fought to subdue the in surgents in this far away colony. It was a "government war" rather than one of fustice or merit. The conflict in Africa smacks of the same flavor. Waters.

It has its foundation in the colonial olicy of the royalists, for which the ever increasing republican portion of the population has no taste.

King Alfonso has proven himself a capable and discreet ruler, and many of his acts have endeared him to his subjects, but it is quite possible that he may make a serious mistake in the emergency now confronting him. The prosecution of an unpopular war soon alternates support from any govern ment, and that in which Spain is now engaged appears to have aroused the intense opposition of the people.

THE TARIFF FARCE.

In spite of the desperate seriousness with which it is taken by the president and certain of the leaders in congress the tariff fight was a huge jest.

It is enough to make a horse laugh and to impel the frisky cow to lead over the moon.

But ludicrous as it is, the spectacle s also disgusing to the people who were watching it with only mild interest. A stupendous battle raged for a few days over hides. The question Kirk. was whether to put them back on the free list, where they were for yaers Pilot Grove, spent a few days of this before the Dingley law was enacted of to retain a duty for the benefit of the beef trust and the political salvation of a few Montana statesmen.

To obtain this remarkable conces sion to the consumer (the independent tanner) necessitated a dicker which revised the duties on half

You good citizens advertise the an nual state fair and want old Sedalians to come and visit the Queen City. What have you to show in improvements? So many strangers coming every day, when they ask, what street is this the answer is, "I don't know." Could it be possible to get names on each corner, the same as the larger cities? I am sure that is the first thing to improve your city. Regarding street improvements, big cities don't care whether street car owners have money or not. Advantages of the Fireless Cooker Over the Usual Method

Retain all the natural juices of meats, vegetables,

Renders food more nutritious and palatable. Requires only about one-fifth the time. Prevents scorching, drying up or burning. Never overcooks or spoils the food. Renders all food much more digestible. Promotes good health and good temper. Prevents the commingling of flavors. Cooks cabbage, onions, etc., entirely without odor. Gives you leisure for calling, shopping, taking a

Turns Sunday dinners from drudgery to delight. Prevents worry if husband or guests are late. Does away with kitchen heat.

Cooks for breakfast over night. Physicians say "the dyspeptic's best friend." Fireless Cookers and the art of fireless cooking are old, having been used in Norway and the old world ages ago-the only difference is that our Cooker is built scientifically for all practical purposes. In operation this wonderful invention is simplicity itself. You simply prepare the food to be cooked

in the regular way-place it on the stove and bring it to boil—then immediately transfer to the Cooker, cover tightly, add the insulated pillow covering - drop the lid and let the Cooker do the rest. In a few hours remove the cover and serve the boiling hot-perfectly cooked and with a taste that will prove delightfully surprising.

THE COOKER

is 24 inches long, 12 inches wide by 12 inches deep, made of kiln dried, specially prepared wood, dovetailed on all corners.

The cabinet is packed with chemically treated mineral wood which retains heat at the highest temperature.

The Cover is pressed steel, perfectly sanitary, and indestructible; it cannot wear out. The lining and Kettle Container is made of heavy seamless enameled tin, airtight and waterproof. Intense cold has absolutely no effect whatever on the contents of the Cooker. A dinner can be put in the Cooker and taken in the open air, on the back porch for example, even if the temperature is 20 degrees belw zero, the cooking process will continue just as perfectly and scientifically as if Cooker was in the house.

The Cooker contains a six-quart and also a four-quart enameled pressed steel cooking kettle with special airtight covers.

REPUBLICANS CALL HIM A "SOREHEAD"

Congressman Crow Was Willing to Endorse an Old Soldier, But the County Chairman Said. "Nay, Pauline."

Washington, Aug. 2 .- It is an unforgivable sin for a republican in the Fourteenth Missouri district to get disgruntled and vote the straight democratic ticket. A certain veteran of the Union army who much desired a postoffice plum has learned this to

He heard that the postmaster was about to resign. Immediately he took his pen in hand and wrote Congressman Charles A. Crow a long letter, making known his desire in unmistakable language and calling attention to the fact that he had seen service in the ranks of the men who wore the blue.

'Crow replied that his name would be recommended, provided he could ances between the engineers and the secure the indorsement of the county committee. Crow also wrote imme- parties being satisfied with the setdiately to the county chairman, tell- tlement. ing him he would favor the appointment of the veteran if acceptable to the committee.

Just what reply the old veteran got from the county chairman is not One Crushed Under Train, the Other known at this end of the line, but the following extract from a letter to Crow frim the chairman indicates that it was anything but favorable:

"I do not doubt that is an ex-Union soldier. But I am told that he has become a sorehead and at the last two elections voted a straight democratic ticket. If so, the republicans of this county must never indorse him. We stand for clean, honest, conscientious republicans in preference to disgruntled ones with a political bellyache.

COMPARED WITH IT, SALOME IS NOT TO BE CONSIDERED FOR AN INSTANT.

IS THE SENSATION IN NEW YORK CITY

Being Presented at the Keith & Proctor Theater - Nothing Like it Was Ever Before Seen in Gotham.

New York, Aug. 4.-Commissioner Baker, who started out to clean up the town, beginning his crusade by causing the arrest of Miss Gertrude Holfman on the charge that her performance of "Salome" was a menace to public morals, has missed the real sensation of all Broadway sensations, The Vampire" dance, as presented by Alice Efs, assisted by Bert French, at Keith & Proctor's Broadway thea. DRIVES OUT EARTHQUAKESINNEXICO RHEUMATISM

Rheumatism is due to an excess of uric acid, an irritating, inflammatory accumulation, which gets into the circulation because of weak kidneys, constipation, indigestion, and other physical irregularities which are usually considered of no importance. Nothing applied externally can ever reach the seat of this trouble; the most such treatment can do is soothe the pains temporarily; while potash and other mineral medicines really add to the acidity of the blood, and this fluid therefore continually grows more acrid and virtated. Then instead of nourishing the different muscles and joints, keeping them in a normally supple and elastic condition, it gradually hardens and stiffens them by drying up the natural oils and fluids. Rheumatism can never be cured until the blood is purified. S. S. S. thoroughly cleanses and removates the circulation by neutralizing the acids and driving the cause from the system. It strengthens and invigorates the blood so that instead city is a Mass of Ruins and Finest core weak stream depositing acrid and painful corrosive matter in of a sour, weak stream, depositing acrid and painful corrosive matter in the muscles, joints and bones, it nourishes the entire body with pure, rich blood and permanently cures Rheumatism. James M. Barrasso, a shoemaker of California, Mo., came to Sedalia that afternoon to hear the concert. During the evening he boarded the street car, destined to the park, where the attraction was to appear. Occupying seats on the same car were several members of the band.

Various topics of conversation were discussed by Barrasso and the band members, when one member suddenly turned to the subject of hi native country. He was Tomasino Napolitano. He told where he was born and of having attended school at Naples. He also specified which school he attended.

Investigation revealed that Napolitano and Barrasso attended the same school at Naples exactly thirty-two years ago, and Thursday's meeting was the first the two had had in the thirty-two years.

Reading, Pa. July 31.-Mrs. Alice Berman, wife of a wealthy Wall street broker of New York, and Francis Jeffries, a journeyman painter of Philadelphia, are under arrest here, charged with "eloping."

The Bermans have an expensive establishment at Atlantic City and thither they go every summer when the market drowses in apathy.

When the Bermans went to their CENTS IN CIRCULATION TODA summer home several weeks ago Mrs. Berman decided that it needed painting, and after his fashion of giving his young wife (she is but 25, while There Is Now More Than \$15,000,000 he is twice that age) everything she could wish for, Mr. Berman sent to Philadelphia and had Jeffries come up and look over the house.

Jeffries got the contract and the house soon was taking on the new coat. But Berman noticed that after the first day the work did not progress as swiftly as it had at the beginning. He noticed that Mrs. Berman and Jeffries, who was a strapping young fellow of 22, used to confer a great deal over the work.

On June 27, Berman returned to the cottage to find that his wife had gone and so had the painter. His suspicions had been well grounded. He was mortified and heart broken.

The husband hired private detectives to track the couple. The chase was hard, but finally resulted in their location here.

When taken into custody Mrs. Ber man became a nervous wreck. She said that she did not know just how she was led into the elopement. She said Jeffries had made love to her and she consented to elope with him.

Jeffries was put in jail so that he might not have access to Mrs. Berman, as the police are looking into very grave charge that lies behind the chase of Jeffries and the woman by

J. F. DURBIN SELLS ONE FIFTH INTEREST IN A PATENT FOR \$25,000.

BIG FORTUNE IN SIGHT FOR INVENTORS

The Coupler Likely to Become as Generally Used as the Westinghouse Air Brake on All Railways,

Fort Scott, Kan., July 31.- Frisco bin arrived home Thursday night at Arthur Dunn and Eugene Teter with 9 o'clock from Denver, where, with disturbing the peace at the Chantau- Kentucky and Tennessee, while dishis son, Votrow F. Durbin, both of qua at Windsor last Tuesday night. whom patented the Durbin automatic safety car coupler, he contracted for the sale of a one-fifth inerest in the patent for \$25,000.

A cash payment of \$2,000 was made yesterday morning in Denver, \$8,000 will be paid by Monday, and the other \$15,000 is to be paid within the next four weeks' time.

And this is not the only streak of good luck of the father and son, THEN ARRESTED FOR WIFE DESERTION either. After turning down an offer of \$55,000 for fifty-one shares of the stock or a controlling interest, they became head of what will be known as the Durbin Automatic Safety Car Coupler syndicate, and \$350,000 shares at \$10 a share will soon be offered for sale.

The Durbins sold this one-fifth interest in the patent to O. Benjamin Haley, a Colorado ranchman, who owns thousands and thousands of acres of land in the silver state, and who 's

He had a representative inspect the coupler at a trainmen's convention of mollycoddle, and the woman never some weeks ago and later made an offer. On the trip to Denver the Durbins were hunted up by another syndicate and offered a big sum for a controlling interest in the patent. The last man they saw at the Denver union depot was a representative of this party, who made overtures to buy up the major fraction of the in terest in the coupler.

Conductor Durbin rightly believes a fortune is in store for him and his sen as a result of the coupler. Of the 17,000 appliances on couplers it seems the most satisfactory of all. Representatives of the interstate commerce commission have seen the coupler and in all probability will approve it and force all railroads to equip cars with the safety appliance.

With this coupler in use cars can not become disengaged, even though an entire train be telescoped. Mr. Haley, who buys a one-fifth interest in the patent, has unlimited capital and could finance the building of a factory where these couplers could be turned out for use. Once in operation the royalty coming in from the use of the couplers would amount to thousands of dollars a year to the Dur-

Conductor Durbin, who has railroaded for thirty-five years, is not going to give up his job because of his good luck in this particular. Neither is his son, Votrow, a machinist, going to abandon his work as a machinist. They will continue railroading for a year or two or until they get their patent in operation, when they expect to retire. The coupler is without doubt the best yet produced and will in the next few years make the Durbins wealthy.

Outrages in Kentucky and Tennessee Causes Larger Acreage to Be Grown Here-The Product of the Past Year.

Special to the Democrat-Sentinel. Jefferson City, Mo., July 31.-Night riding during the tobacco troubles in astrous to the farmers of those two states, indirectly and unintentionally proved beneficial to Missouri, as it created more of a demand for the variety of the "weed" which is raised here, thereby bringing many a dollar into the coffers of growers who were far-sighted enough early last year to realize that there would be a market for all that would be produced and a higher price paid per pound.

According to advance figures from the 1909 "Red Book" of the bureau of Labor statistics, today made public by Commissioner J. C. A. Hiller, the farmers of Missouri in 1908 shipped to St. Louis, Kansas City and Chicago and other large cities a total of 963, 968 pounds of home grown tobacco, valued at \$115,676, as compared with 609,532 pounds, valued at \$48,762, for the year 1907. For a side line this is

a large gain and practically means just that much "easy money" for the farmers who shipped to the large

Large Future Crop. It is already known that the 1909 crop will exceed that of 1908, as many more acres were planted early this year. Good inducements in the shape of free seed and the promise

of a good price per pound offered to farmers for all they could raise made many anxious and active. At one time Missouri ranked high as a tobacco state, producing a tre-

carried to market in huge hogsheads by steamboats. Heavily laden wagons were driven many miles to a landing place in the eagerness to place the product in the hands of shippers. St. Louis then had many large tobacco warehouses and hundreds of men were engaged in curing, packing and otherwise preparing the Missouri weed for the manufacturers.

One of these huge buildings still stands at Twelfth and Market streets, east of the city hall, as a forcible reminder of these good old days. Since then other crops, which pay better and are not so hard to raise and prepare for the market, have taken the place of tobacco on the farm.

Night Riding Did It. It remained for the "night riding" ally restore an almost lost industry in Missouri. Yet, it is true that nearly every farmer has, and has had for

Cough Caution

Naver, positively never poison your lungs. If you cough—even from a simple cold only—you should always heal, soothe, and ease the irritated bronchial tubes. Don't blindly suppress it with a stupefying poison. It's strange how some things finally come about. For twenty years Dr. Shoop has constantly warned people not to take cough mixtures or prescriptions containing Opium. Chloroform, or similar poisons. And now—a little late though—Congress says "Put it on the label, if poisons are in your Cough Mixture." Good! Very good!! Hereafterforthis very reasonmothers, and others should insist on having Dr. Shoop's Very good!! Hereafterforthisvery reasonmothers, and others, should insist on having Dr. Shoop's Cough Cure. No poison marks on Dr. Shoop's labels—and none in the medicine, else it must by law be on the label. And it's not only safe, but it is said to be by those that know it best, a truly remarkable cough remedy. Take no chance then, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr. Shoop package with others and note the difference. No poison marks there! You can always be on the safe side by demanding

All these went out by rail and these figures do not tell for those counties what was kept at home for the farmers themselves or was sold or given to neighbors, which was probably 25 per cent

> A Matter of Taste. Much Missouri tobacco is made up into cigars, and when the weed has been properly cured and prepared it smokes as deliciously as any imported kind-of course, all this depending on the taste of the smoker and how vivid his imagination is. With a high ly colored imported wrapper around bunch of the home grown leaf, there are hundreds of men with the "habit" who can easily full themselves into the belief that they are enjoying a pure Havana just because the cigars were in a tasty looking box, neatly made up and were labeled "ten cents straight." That the article they received was as good there is no doubt, if entirely composed of Missouri tobacco.

When campaigns were conducted in the old fashioned way, every office seeker when stumping the rural districts, had to carry a twist or two as a letter of recommendation, and take an occasional chew, whether he liked it or not just to show that he was made of the right stuff. and that anything from Missouri was good enough for him.

icket May Be Bought for as Little as a Penny and Large Sums Are Frequently Won-It Is Fair and Above Board.

Rome, Aug. 2.—The importance of the weekly lottery, which the Iralian government took over from the Papal and Bourbon governments, in forming budget surpluses is once more proved by the figures of the last financial year, which have just been

published. During that period the state made a gross sum of \$16,671,280, and a net profit of \$7,227,000, out of this cheap and very popular form of gambling, the difference being composed of some \$1,500,000 in commissions and other office expenses, and the rest of prizes. The lottery is far more remunerative at Naples than anywhere else, for there the average amount spent in this sert of speculation is as much as \$3,87 per head of the population, whereas in the better educated northern district of Sondrio the

average is only 4 cents. The lottery is most productive where the people are most illicerate and least inclined to invest in savings banks; for the illiterates at Naples are still nearly 55 per cent of the total population, after nearly fifty years of Italian rule there.

The lottery is one of the most generally appreciated government institutions; it is fair and above board; large sums are not infrequently won, and a ticket may be bought for as little as a penny. But its bad influence in encouraging superstition and a gambling spirit is obvious, and a Socialist deputy from the south lately expressed the hope that one day it would be abolished. In that case there would probably be a revolution at Naples.

Each of the chief organs of the body is a link in the Chain of Life. A chain is no stronger than its weakest link, the body no stronger than its

weakest organ. If there is weakness of stomach, liver or lungs, there is a weak link in the chain of life which may snap at any time. Often this so-called "weakness" is caused by lack of nutrition, the result of weakness or disease of the stomach and other organs of digestion and nutrition. Diseases and weaknesses of the stomach and its allied organs are cured by the use of Dr. Pierce's Golden Medical Discovery. When the weak or diseased stomach is cured, diseases of other organs which seem remote from the stomach but which have their origin in a diseased condition of the stomach and other organs of digestion and nutrition, are cured also.

MRS. HUMPHREY IS DEAD

SHE WAS A DAUGHTER OF LATE DR. WILLIS P. KING, WHO DIED ON JULY 12.

FINAL SUMMONS IN KANSAS CITY FRIDAY

Body Will Be Brought to Sedalia Tomorrow Afternoon and the Burial Will Be in Crown Hill Cemetery.

(From Sunady's Daily.)

Mrs. Amanda K. Humphrey, daugh ter of the late Dr. Willis P. King, a former resident of this city, died from neuritis at her home at Kansas City Friday afternoon, as will be seen by the following from Saturday's Kansas City Journal:

"Mrs. Almeda K.-Humphrey, daughter of the late Dr. Willis P. King, died at the family home, .3031 Wabash avenue, shortly after 3 o'clock yesterday afternoon.

died on July 12.

"Mrs. Humphrey was 41 years old Spain. April 10, last. She was born in Vernon county, Mo. On October 19, 1892, she was married to Spencer M. Humphrey, son of the late Judge James Humphrey of Junction City, Kan.

"Spencer Humphrey, who was for years passenger conductor on the Union Pacific railroad, was killed in a railway accident at Lawrence, Kan., September 22, 1895.

"Mrs. Humphrey had been ill for the past year, the last four months of which she was confined to her bed. Her death primarily was due to neuritis, but about a week ago congestion of the brain developed and she remained unconscious most the time until her death.

"She had no children. She is survived by her mother and four brothers Robert E., Willis P., Albert H. and Granville S. King.

"The funeral will be from the home, 3031 Wabash avenue, at 10:30 o'clock Monday morning. Services will be conducted by the Rev. Burris A. Jenkins of the Linwood Boulevard Christian church.

"Burial will be in the family lot at Sedalia, Mo., the same afternoon.' The remains will be shipped to Sedalia, arriving here at 4:25 o'clock tomorrow afternoon. They will be taken directly to Crown Hill ceme tery, where interment will be made in the family burial lot.
